Claim Rejections - 35 USC § 103

1. Claims 1-3,6-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Chachques in view of Heynen et al.

See previous office action.

2. Claims 4,5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Chachques and Heynen et al and further in view of Bonnet.

See previous office action.

Specification

3. The disclosure is objected to because of the following informalities: page 1, line 5, of the specification is missing an application serial number.

Appropriate correction is required.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

The remarks made by applicant have been considered, however the above rejections are still deemed to be appropriate. Re claim 1, the controller of Heynen is considered to be 'programmable' for any number of different pacing modes. Further, the therapy of pre-excitation, as set forth in applicant's disclosure, is considered to be analogous to/obvious over that described in the Chachques reference.
